Guide

Welcome to **Passerelle Guide**!

In this part of the documentation we explain step by step how to create your own projects with rich XR procedures. You'll learn how to use the XR Platform as a web editor, to validate procedures and make projects public. You'll also learn how to create procedures with Passerelle (MR) editor and Passerelle Author.

General Platform roles

- Administrator: manage organizations, subscriptions, groups and persons.
- Coordinator: Invite persons to your workplace and explore together in multiplayer.

Specific Guide roles:

- Designer: create XR procedures with the MR editor and Author.
- Validator: validate created XR procedures.
- Planner: plan the validated XR procedures to be used in Passerelle Player on different devices.
