

How to validate procedures?

Created procedures need to be validated before they can be scheduled and used by trainees.

Note

Make sure you have the **Validator** role. You can change roles by clicking on them and switch to another one in the list.

Dashboard Guide

Open Validation Tasks

<input type="checkbox"/>	Request Date ↓↑	Procedure ↓↑	Version	Project ↓↑	Designer ↓↑	Validator ↓↑
<input type="checkbox"/>	▶ 2024-12-18 12:21	This is a testprocedure	2	Niels_Demo_test_1	niels.vleeschouwer@supportsquare.io	Niels Vleeschouwer

- In the Dashboard you will see procedures that you can validate. These aren't always assigned to you specifically but you can easily assign yourself.
