Release notes 3.3

XR Platform

Improvements

- Expired licences are more visible
- Added a description column in the Subscriptions menu

New features

- Devices can now be organized and managed in groups

Bug fixes

- You can now create persons when creating an organization without issues

Teach Square

New features

- Insights Dashboards with user data

Guide Square

Improvements

- Portal improved layout and user experience for guide procedures
- Revised Guide roles and functionality per role
- Added possibility to cancel multiple jobs
- Filter jobs for designer and planner differently (Designer sees his jobs, Planner sees all validated jobs)

New features

- Finished guide procedures contribute to the completion rate of the jobs in the dashboard

Bug fixes

- Refresh procedure and project page in portal without having to renavigate
