

Onboard and manage devices with XR Installer

The XR Installer is a windows application created to onboard your (VR) devices when you come in contact with the XR Platform for the first time. It adds the license file, app manager and applications without you having to put devices on your head.

Warning: not compatible with other device management software

Download the XR Installer

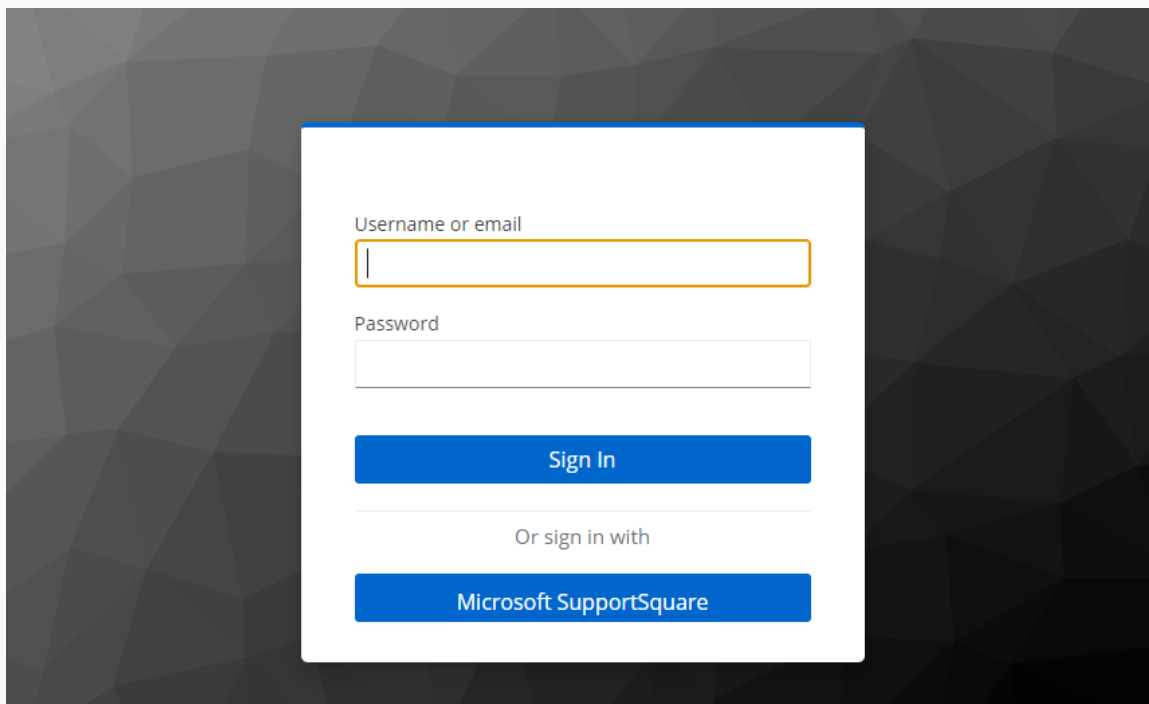

Use [this link](#) to download the XR Installer for Windows.

Manual

Open the XR Installer and log in

The image shows a login window for the XR Installer application. The window has a white background and is centered on a dark, geometric-patterned background. It contains two input fields: 'Username or email' and 'Password'. Below these fields is a blue 'Sign In' button. Underneath the button is a horizontal line, followed by the text 'Or sign in with', and then another blue button labeled 'Microsoft SupportSquare'.
