

# Where can I see user data of organizations, groups and applications?

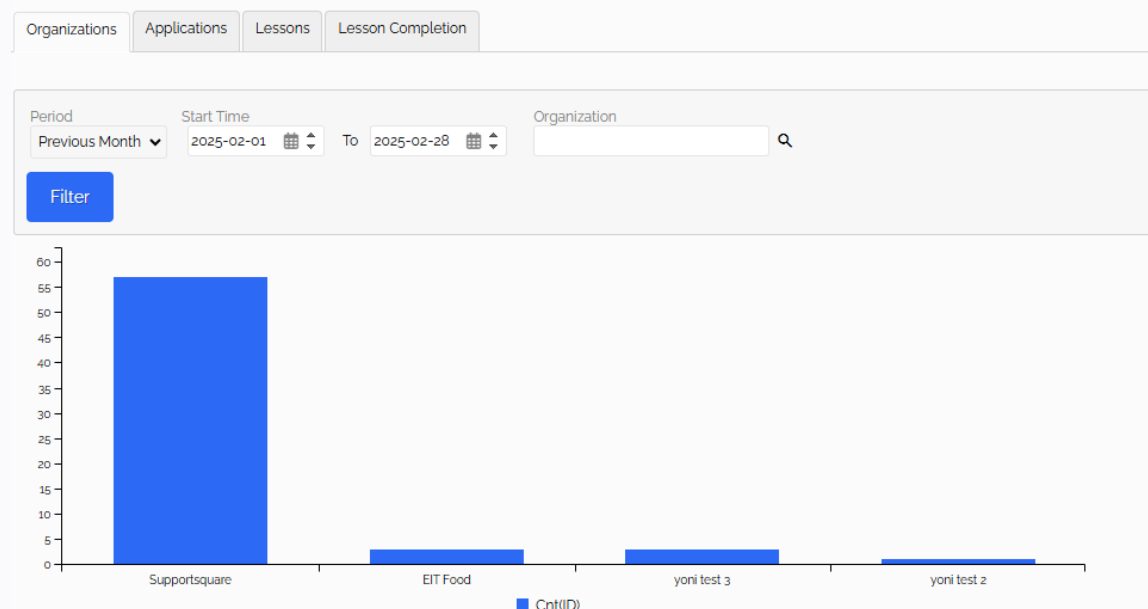

- Go to the XR Platform

## Note

Make sure **Teach square** is selected. You can change squares by clicking on the corresponding icon. 

- Go to Insights.
- Here data is organized in four categories: Organizations (only available for the main organization), applications, lessons and lesson parts.

## Organizations

- The main organization can see the activity of other organizations on the same tenant.
- The default date will always be this month, but you can adjust this in the search bar.
