

Invite people to a VR Environment (Available in 4.1)

Plan a meeting with coordinator tools

This option is ideal if you want to organize a formal guided tour or experience. You will attend the meeting in VR with your participants.

Note

Make sure you have the **Planner or Administrator** role. You can change roles by clicking on them and switch to another one in the list.

- Click on 'Plan Meeting'.
- Give a title to your meeting. This could be the name of an event or exhibition for example.
- Add people from your organization. You and your invitees will receive a pin code by email to join your explore environment.
- Be sure to log in with your own **coordinator pincode**, as you will need the coordinator tools.
- Use the pin code in the Explore app on your VR device.
