

How to create objectives and lesson content?

How to create Objectives?

- Go to the XR Platform.

Note

Make sure you have the **Designer or Administrator** role. You can change roles by clicking on them and switch to another one in the list.

The screenshot shows the Passerelle XR Platform interface. On the left is a dark sidebar with the Passerelle logo and a user role dropdown set to 'Administrator'. Below the role are menu items: Dashboard, PLANNING, DESIGN, LEARNING CONTENT (highlighted with a red box), Courses, Lesson Content, and Objectives (highlighted with a red box). Below these are INSIGHTS, IDENTITY & ORGANIZATION, and MANAGE. On the right, the 'Objectives' page is displayed. At the top left of this page is a '+ Create' button (highlighted with a red box). Below it is a table with two columns: 'Title' and 'Description'. The table contains several rows of objectives, each with a checkbox in the 'Title' column. The first row is 'De trainee kan het buizensysteem van de vloerverwarming spoelen'. The second row is 'De trainee verkent verschillende bouwknoopen binnen het VRhuis'. The third row is 'De trainee volgt de instructies om lagen binnen de bouwknoop te bepalen'. The fourth row is 'De trainee volgt zelfstandig het detail van de funderingsaanzet om lagen binnen de bouwknoop te bepalen'. The fifth row is 'Test erwin / Test Dirk'. The sixth row is 'Test mEt spécåle kåråktérS ([!]+@)]'.

- Press Objectives and Create.
