

Install/update Passerelle Player

Supported XR Devices (Meta Quest 2,+Pico Neo 3+)

- Search for the device or device group in Devices.
- Press Install to install the latest Player app.
- Press the update button on the app to update to the latest version.

The screenshot displays the Passerelle web interface. On the left is a dark sidebar with the 'passerelle' logo and a navigation menu. The 'Administrator' role is selected. The menu includes 'Dashboard', 'PLANNING', 'DESIGN', 'LEARNING CONTENT', 'INSIGHTS', 'IDENTITY & ORGANIZATION', and 'MANAGE'. Under 'MANAGE', 'Applications' and 'Devices' are listed, with 'Devices' highlighted in blue. A circular 'NV' badge is at the bottom of the sidebar. The main content area is titled 'Pico 52' and has tabs for 'Details', 'Operational Info', 'Pending Actions', and 'Processed Actions'. The 'Details' tab is active, showing an 'Information' section with fields for Name (Pico 52), Brand (Pico Ag4Yo), Serial Number (PAg4YoMGkBo5o731G), Type (VR Headset), OS Type (Android), Organization (SupportSquare), and Group (Admin SupportSquare). Below this is an 'Applications' section with a '+ Install' button highlighted by a red box. A table shows two rows of applications: 'App Manager' version 4.8.5 and 'Passerelle Play...' version 3.1.34, with the latter's icon highlighted by a red box.

Desktop

- Download Passerelle Player [here](#)
- Open the app file on your desktop.
